Contents of Volume 45, 2006

Number One (G321-0160)

On demand platform for online games 7
A. Shaikh, S. Sahu, M.-C. Rosu, M. Shea, and D. Saha

Running Quake II on a grid 21
G. Deen, M. Hammer, J. Bethencourt, I. Eiron, J. Thomas, and J. H. Kaufman

System-performance modeling for massively multiplayer online role-playing games 45
M. Ye and L. Cheng

Using advanced compiler technology to exploit the performance of the Cell Broadband Engine™ architecture 59
A. E. Eichenberger, J. K. O'Brien, K. M. O'Brien, P. Wu, T. Chen, P. H. Oden, D. A. Prener, J. C. Shepherd, B. So, Z. Sura, A. Wang, T. Zhang, P. Zhao, M. K. Gschwind, R. Archambault, Y. Gao, and R. Koo

MPI microtask for programming the Cell Broadband Engine™ processor 85
M. Ohara, H. Inoue, Y. Sohda, H. Komatsu, and T. Nakatani

High-performance server systems and the next generation of online games 103
B. D'Amora, K. Magerlein, A. Binstock, A. Nanda, and B. Yee

Content protection for games 119
G. Myles and S. Nusser

A context-aware smart-call-center solution: Improving customer service for online games 145
L. Luo, J. Liu, L. Shao, W. Lu, and M. Ye

Online games and e-business: Architecture for integrating business models and services into online games 161
C. E. Sharp and M. Rowe

A marketing maturity model for IT: Building a customer-centric IT organization 181
R. Hirschheim, A. Schwarz, and P. Todd

Number Two (G321-0161)

Technical context and cultural consequences of XML 207
S. Adler, R. Cochrane, J. F. Morar, and A. Spector

Generation of efficient parsers through direct compilation of XML Schema grammars 225
E. Perkins, M. Matsa, M. G. Kostoulas, A. Heifets, and N. Mendelsohn

Integration of SQL and XQuery in IBM DB2 245
F. Özcan, D. Chamberlin, K. Kulkarni, and J.-E. Michels

DB2 goes hybrid: Integrating native XML and XQuery with relational data and SQL 271
K. Beyer, R. Cochrane, M. Hvizdos, V. Josifovski, J. Kleewein, G. Lapis, G. Lohman, R. Lyle, M. Nicola, F. Özcan, H. Pirahesh, N. Seemann, A. Singh, T. Truong, R. C. Van der Linden, B. Vickery, C. Zhang, and G. Zhang

Cost-based optimization in DB2 XML 299
A. Balmin, T. Eliaz, J. Hornibrook, L. Lim, G. M. Lohman, D. Simmen, M. Wang, and C. Zhang

The importance of sibling clustering for efficient bulkload of XML document trees 321
C. C. Kanne and G. Moerkotte

XQuery Full-Text extensions explained 335
S. Amer-Yahia, C. Botev, J. Dörre, and J. Shanmugasundaram

Enhancing XML search with XQuery 1.0 and XPath 2.0 Full-Text 353
P. Case

Revolutionary impact of XML on biomedical information interoperability 361
A. Shabo, S. Rabinovici-Cohen, and P. Vortman

Emerging patterns in the use of XML for information modeling in vertical industries 373
S. Hinkelman, D. Buddenbaum, and L.-J. Zhang

XML mapping technology: Making connections in an XML-centric world 389
M. Roth, M. A. Hernandez, P. Coulthard, L. Yan, L. Popa, H. C.-T. Ho, and C. C. Salter

Virtual XML: A toolbox and use cases for the XML world view 411
K. H. Rose, S. Malaika, and R. J. Schloss

Business processes for Web Services: Principles and applications 425
R. Khalaf, A. Keller, and F. Leymann

Number Three (G321-0162)

Model-driven development: The good, the bad, and the ugly 451
B. Hailpern and P. Tarr

A Rational approach to model-driven development 463
A. W. Brown, S. Iyengar, and S. Johnston

Architectural thinking and modeling with the Architects' Workbench 481
S. Abrams, B. Bloom, P. Keyser, D. Kimelman, E. Nelson, W. Neuberger, T. Roth, I. Simmonds, S. Tang, and J. Vlissides

A measurement framework for evaluating model-based test generation tools 501
A. Sinha, C. E. Williams, and P. Santhanam

Model traceability 515
N. Aizenbud-Reshef, B. T. Nolan, J. Rubin, and Y. Shaham-Gafni

Multilevel models in model-driven engineering, product lines, and metaprogramming 527
D. Batory

Model-driven development: Assets and reuse 541
G. Larsen

Rational Software Architect: A tool for domain-specific modeling 555
D. Leroux, M. Nally, and K. Hussey

Model-driven systems development 569
L. Balmelli, D. Brown, M. Cantor, and M. Mott

Model Driven Development for Business Performance Management 587
P. Chowdhary, K. Bhaskaran, N. S. Caswell, H. Chang, T. Chao, S.-K. Chen, M. Dikun, H. Lei, J.-J. Jeng, S. Kapoor, C. A. Lang, G. Mihaila, I. Stanoi, and L. Zeng

UML 2: A model-driven development tool 607
B. Selic

Feature-based survey of model transformation approaches 621
K. Czarnecki and S. Helsen

Technical forum
Using logical data models for understanding and transforming legacy business applications 647
S. Chandra, J. de Vries, J. Field, H. Hess, M. Kalidasan, K. V. Raghavan, F. Nieuwerth, G. Ramalingam, and J. Xue

Number Four (G321-0163)

Beyond predictable workflows: Enhancing productivity in artful business processes 663
C. Hill, R. Yates, C. Jones, and S. L. Kogan

Business activity patterns: A new model for collaborative business applications 683
P. Moody, D. Gruen, M. J. Muller, J. Tang, and T. P. Moran

Activity management as a Web service 695
A. Cozzi, S. Farrell, T. Lau, B. A. Smith, C. Drews, J. Lin, B. Stachel, and T. P. Moran

Activity Explorer: Activity-centric collaboration from research to product 713
W. Geyer, M. J. Muller, M. T. Moore, E. Wilcox, L.-T. Cheng, B. Brownholtz, C. Hill, and D. R. Millen

Uncovering the to-dos hidden in your in-box 739
D. M. Sow, J. S. Davis II, M. R. Ebling, A. Misra, and L. Bergman

Ethnographic study of collaborative knowledge work 759
S. L. Kogan and M. J. Muller

Following the sun: Case studies in global software development 773
J. J. Treinen and S. L. Miller-Frost

Machines in the conversation: Detecting themes and trends in informal communication streams 785
W. S. Spangler, J. T. Kreulen, and J. F. Newswanger

Technical forum
Communication-minded visualization: A call to action 801
F. B. Viégas and M. Wattenberg

Using ontology to support development of software architectures 813
A. Akerman and J. Tyree

Note—Numbers in parentheses after issue numbers denote the issue order numbers.
